## Self-Delivery

**At Westshield, self-delivery means self-delivery. From our directly employed workforce to our company-owned plant and fleet vehicles, we are built to deliver every element of the works.**

Our self-delivery approach allows us to drive the economy and efficiency for our clients, as well as providing the greatest certainty of delivery.

Our company-owned fleet includes:

- **Extensive range of in-house plant** including a range of excavators, dumpers, compactors, tippers, hi-abs
- **A fleet of service vehicles** including four-wheel drives, vans and company cars
- **Small tools and proprietary equipment** such as formwork, falsework and excavation support

Our fleet is supported from our service yard in Bredbury, which acts as a central coordination and storage point for our plant and vehicles. The service yard has an under-cover workshop with a 30t gantry crane and inspection pit for vehicle servicing. It also provides over two acres of hardstanding, offering enormous opportunity for offsite manufacture.
