COMPANY

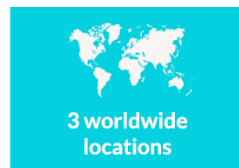

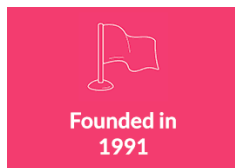

[Home](#) » [Company](#)

Founded in 1991, Ghekko is a **supplier of new and refurbished communications equipment** including **telephone systems, networking and optical transmission equipment**. Our 3 facilities located in the UK, USA and Ireland enable us to operate worldwide and supply communications equipment to our international clientele.

Ghekko started in the UK in 1991, since then we expanded worldwide! We first acquired our **technology centre in Ireland**. Located in Belfast, close to the ex-Nortel plant in Monkstown, these repair and R&D facilities came in addition to our already successful labs in England. As our customers are spread all over the world, we then acquired other **offices in the USA**. In 2016, Ghekko acquired A1 Teletronics to diversify its offerings for current and future clients.

We sell a vast range of equipment from all the leading manufacturers including Alcatel-Lucent, Avaya, Cisco, Ciena, Mitel, Nokia, Nortel, Polycom and many more. Our portfolio of products includes new and refurbished equipment.

Nothing is more important for us than the **quality of the products we sell** that's why we've set up refurbishment and repair labs in the UK and USA and a technology centre specialising in optical repairs in Ireland. We invest a lot in research and development. Our engineers and technicians have an extensive industry and product knowledge that enable us to supply and repair all kind of telecom equipment.
