## Consultation

**We are proud of the quality and experience of the operations team that we have established and developed over many years.**

In conjunction with the latest technology, our expertise puts us at the forefront of the Logistics Consultancy industry.

For route planning, fleet management, efficiency evaluation or a complete operational review,

P & H are able to provide solutions to ensure that your transport operation runs effectively, giving you more time to concentrate on your core business.

We have proven expertise in the design of dedicated or brokered solutions and manage the project establishing the optimum operational methodology.

This encompasses consultation, confidentiality agreements, planning and implementation, through to handover and the establishment of KPI's.
