

Online services and Embedded Payment solutions

Stay in control of your finances with our online services.

A range of connectivity options, from online banking to host-to-host and API, can help you streamline business processes.

Commercial Banking Online

Commercial Banking Online will help you manage your business online, giving you access to both your sterling and currency accounts 24/7, 365 days a year. Occasionally we may need to carry out essential maintenance, resulting in some interruption to service.

Lloyds Bank Gem®

New regulations, evolving technology and increasing customer expectations are driving changes in payments. To meet these new challenges, we've developed a new cash management and payments platform, Lloyds Bank Gem®.
