WE REPAIR

[Home](#) » [We Repair](#)

Why buy new when we can **repair your existing equipment**? **Ghekko's telecom repair services** are more **cost-effective** than buying new equipment. We'll save you money by increasing the life of your current equipment.

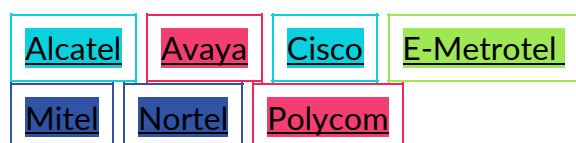

We've set up two specialist testing labs at Ghekko with a vast array of captive equipment in them that allows us to test most telecoms products as well as optical and networking products. We employ experienced electrical

engineers, telecoms engineers and repair technicians capable of diagnosing problems and repairing all products.

Our extensive product knowledge and experience enable us to provide the best telecom repair services.

We're more than happy to screen products for our customers and recommend the best course of action for their repair, even if they want to take it back and repair it themselves. We can also upgrade firmware and software for you providing it is in line with your licence agreements.

You can also consult our **telecom repair** lists for :

Request a repair

For more information on our **repair services for telecom, networking and optical equipment**, please contact us. You can fill in the form below with a list of the equipment you would like us to repair, we will get back to you within 24 hours.

Phone systems repair

Our technology centre is staffed by OEM trained engineers and technicians that are able to provide the best repair services for any phone systems. We mainly repair Nortel and Avaya phone systems. Please get in touch to request more information or a quote.

Phone systems repairs

Optical transmission repair

At Ghekko, we have built our technology centre in Belfast predominately around Transmission Optical Hardware. Our capability ranges from current 100G technology, through to End Of Life SDH platforms. We can repair and test the full ranges of optical Nortel & Ciena equipment down to component and revision level. We can also provide repair for Cisco and Adva optical products.

Optical transmission repairs

Conference phones repair

Repairing your conference phone is a cost-effective and environmentally friendly solution as it increases the life of your current equipment. Why buy new when we can repair it for you? Our engineers and technicians are specialists and when it comes to repairing conference phones they run stringent processes. From testing to fixing, their extensive industry and manufacturers knowledge enables them to provide the best repair service.
