As specialists in cattle bedding, we know that providing dry, comfortable and hygienic bedding for your cows is extremely important. The happier and cleaner your cattle, the better the quality and quantity of their produce, which directly translates into more profit for you.

Our many years of experience in the agricultural industry has given us valuable insight into the issues farmers face, enabling us to manufacture products which directly address these problems. Find your perfect bedding below...

## OUR PRODUCT RANGE:

**PREMIUM CHOPPED STRAW**  
**Premium Chopped Straw**

For use as horse bedding, our premium chopped wheat straw is double-dusted and chopped. Deep, comfortable beds are easy to create and maintain, and are less wasteful than beds made of whole straw or shavings, saving you time, and money. Benefit from quicker, easier bedding – readily available all year round.

## Powder BED

### Powder Bed

Powder Bed was developed by Platts to provide a hygienic and comfortable cubicle drying solution for your dairy cows, using a unique, super fine consistency of softwood sawdust to ensure a dry and clean environment.

[VIEW PRODUCT](#)

# finebed

## Fine Bed

Fine Bed® cubicle conditioner is designed to be used sparingly on the mat or mattress, to control moisture and keep cattle clean and hygienic. Since it's so fine and 100% dry, only one large cup of product is required per cow mat- meaning a bag covers up to 50 cubicles! We recommend bedding twice daily – little and often!

**PREMIUM SHAVINGS**  
**Premium Shavings**

Platts Premium Shavings (PPS) are designed with your horses in mind. Following years of development, our modern screening facilities ensure that PPS are completely dust extracted, in order to produce high-quality stable bedding for your horse or pony.

[VIEW PRODUCT](#)

**PLATTS STANDARD SHAVINGS**  
**Standard Shavings**

Platts Standard Shavings are designed with your horses in mind- as a excellent value alternative to completely dust-extracted shavings. Platts Standard Shavings still undergo a screening process to remove most dust – providing a clean and healthy environment for your equines at an extra affordable price.
